Outdoor lighting

## Nouvelle Brick<sup>2</sup>

La forme, le design et les dimensions restent identiques. Stéphane Joyeux a imaginé un nouveau dossier mural pour simplifier et optimiser la connectique, la ventilation du produit, le montage et le maintien des verres.

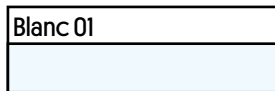

Afin d'associer l'esthétique aux performances techniques, le design du réflecteur présente un aspect légèrement strié et optimise le rendu de l'éclairage.

Le diffuseur devient hémicylindrique et amovible pour s'adapter à l'évolution permanente des sources.
